

Mobile Pixels Glance

Expand Your Productivity On The Go.

The Mobile Pixels Glance monitor is a completely portable dual-screen laptop accessory that promises to boost your productivity by up to 50% and allows for efficient multitasking.

Perfect Visual Experience

By utilizing the latest in LCD technology, the Mobile Pixels Glance 16-inch monitor provides a full high-definition experience along with vibrant colors for any working condition.

Hybrid-Signal Solution

Compatible with DP enabled USB Type-C ports. Also compatible with HDMI port, additional USB cable required for power delivery. With the 3.5mm audio input, you could connect your own earbuds or speakers with our portable screen, enjoying your personal joyful moment.

Dual Surround Speakers

Built-in dual speakers provide high-quality sound when you listen to music, watch movies and even play games. The 3.5mm headphone jack outputs audio allowing you to connect this monitor to external speakers for a better audio experience.
