For Ergonomic Comfort and Various Scenarios.

You'll find how versatile the sliding lid is to satisfy multiple purposes. As a protective cover when the portable second monitor is not in use, a mount that magnetically attaches to the back of laptop, also a prop stand in portrait mode. Allows from horizontal contents to vertical usage, basically four display modes.

Add Negligible Weight and Thickness to Your Laptop.

Offer a sleek way to carry a laptop second monitor around with this DUEX Plus, which is 30% lighter and nearly 50% slimmer than the previous generation. Sophisticated design and adhesive mechanism make it easy to toss it into any bag together with your device without weighing you down.

Work and Play, Where You Like.

We've extended the compatible devices list to bring more versatility. The DUEX Plus portable laptop monitor gives you an external secondary display for your laptops, PCs, and selected Android phones for work purpose, as well as a gaming monitor for Nintendo Switch.

EYE-CARE MODE

Ensure Optimal Eye Comfort.

Turn Eyecare Mode ON for optimal color temperature and brightness to effectively reduces the amount of potentially harmful blue light emitted by the display. When you are reading, word processing or in a low-light environment, it can help you to get rid of eyes fatigue and keep your eyes feeling comfortable.
