

Mobile Pixels Duex Max (Blue)

Duex Max

The DUEX You've Been Waiting For.

DUEX Max is our most upgraded, portable dual-screen laptop accessory that makes multitasking effortless. The iconic portable, external monitors complement mobile work, entertainment on the go, and everything in between.

Four Expressive Color Options

Now, you can also choose from four expressive hues to convey the true you.

Large 14.1" Full-HD Display

DUEX Max features a larger 14.1" full-HD display that easily slides out to either side of your laptop. You'll enjoy the same 1080p resolution but with an 85% screen-to-body ratio so everything you see is crisp and clear.

Lightweight and Durable

At just 1.8 pounds, DUEX Max is 23% lighter and gives you true mobility with the most durable materials. It's also energy-efficient and specially designed to reduce battery drain from your laptop. Plus, we created DUEX Max with ABS and aluminum, so it can withstand the wear and tear that comes with transporting your laptop around.

For Ergonomic Comfort and Various Scenarios

DUEX Max still features auto rotation and can be used in its intended landscape mode, portrait mode, presentation mode, eye care mode or kickstand mode—perfect for any scenario.

VERSATILE COMPATIBILITY

Compatibility With Ease

Easily pair your DUEX Max with any laptop or device, including a Nintendo Switch and select Android phones, via USB-C or USB-A connection.
