

Mobile Pixels Duex Lite Grey

One-to-Two Screen Versatility.

Whether you're looking for a dual laptop monitor for everyday personal use or for completing schoolwork on the go, the DUEX Lite attachable monitor for laptop is a lightweight, slim, portable solution for a double laptop screen.

Six Colours, Endless Creativity

Give your laptop a stylish-yet-functional upgrade with your favourite colour option. The DUEX Lite colourful computer monitor was crafted to look and feel good with a matte finish in six colour options: choose between deep grey, sky blue, jadeite green, misty lilac, set sail blue, or a cool white monitor. Pick a shade that matches your laptops and mobile devices or add a pop of colour to your tech setup with the bolder hue of a blue, green, or purple monitor.

The DUEX Lite double portable monitor is equipped with a versatile, multipurpose sliding lid. Use it as a protective cover when you're not using your laptop 2nd monitor, a magnetic double monitor laptop attachment, or as a prop stand in portrait mode. From horizontal orientation to vertical usage, our double laptop screen offers four display modes.
